22 – Références bibliographiques

Cette section contient une liste de références bibliographiques concernant les œuvres traitant de SGML et les sujets connexes [1] ; elle sert également à montrer l'emploi de l'élément <*bibl*> présenté dans la section 13 «Citations bibliographiques» ci-dessus.

On trouvera donc la bibliographie elle-même suivie du texte TEI.

Bibliographie

[1] ALA (American Library Association), *ALA-LC Romanization Tables: Transliteration Schemes for Non-Roman Scripts*, approved by the Library of Congress and the American Library Association, tables compiled and edited by Randall K. Barry. Washington: Library of Congress, 1991.

[2] ANSI (American National Standards Institute), *ANSI X3.4-1986. American National Standard for Information Systems — Coded Character Sets — 7-bit American National Standard Code for Information Interchange (7-bit ASCII).* [New York]: ANSI, 1986.
